

Names of the collection Baguet

Look for a two-part Latin name (e.g. *Rosa canina*) written on the original label on the bottom of the sheet. Type it as written on the label. If you can't read the name properly, take a look at the website www.ipni.org

If the Latin name is on the label but you can't read it, even after consulting www.ipni.org, tick the 'Incomplete transcription' box.

Can't see a Latin name? Then tick the box 'no pencil name'.

Finished!
